

# ReEntry®

Remove. Revive. Rehone.

**Do you know what happens with your used flooring, when you refurbish your space?**

**You could be throwing away more than you think.**

**By choosing ReEntry, you will ensure more social and environmental value is created with your used carpet, taking you one step closer to a circular economy.**

Every day, tonnes of carpet are discarded, mainly ending up in landfill. In the UK alone, it's estimated that about 165,000 tonnes of carpet end up in landfill each year.

**Between 2016 and 2018**  
we prevented more than  
**3.5 million m<sup>2</sup> of carpet**  
going to landfill around  
the globe.

# Don't let all the good work go to waste.

With ReEntry, we can create more value from your flooring. We take care of collecting your used carpet tiles – which saves you a lot of hassle. More importantly, we make sure they don't go into landfill. We put them to good use.

On average 60% of your used carpet will be reused through our social ReUse partner network. As an absolute last resort, it will be turned into useful energy, through a waste-to-energy facility.

# ReEntry: a hierarchy of options to keep carpets out of landfill.

## ReUse

Specialist UK social enterprises and reuse operators find a second home for your used carpets. Whenever possible, this is the option we take.

## RePurpose

The carpet can be converted into other products or services. Existing opportunities include equestrian riding surfaces.

## ReCycle

We've developed recycling processes to ensure the maximum amount of material ends up in new carpet or in other recycling streams.

## ReCover

When absolutely necessary, we recover energy in a waste to energy facility. Never plain incineration.

## How ReEntry works in the UK

1

### Site of installation

It's time to update your flooring

2

### Contractor

The uplifted carpet is palletised and collection is arranged

3

### Interface

The carpet is collected

4

### Interface partners

Specialised social enterprises help find a new home for your used carpets

5

### Interface

We issue a certificate to document your commitment to reducing waste

# ReUse makes a real difference.

**You may not need those carpet tiles anymore, but if your flooring's got more to give, someone else will find it useful.**

Across the UK we work with social enterprises, ReUse and RePurpose partners, who specialise in rehoming used carpets. They work mostly with charities, community groups and housing associations, making sure the flooring benefits those who really need it. Plus, they employ and train people in their communities– so finding a second home for your used carpet can make all the difference in more ways than one.

# Our ReEntry partners.

## ReUse Partners

### Spruce

As well as servicing the Glasgow and surrounding areas with ReUse carpet tiles, Spruce Carpets offers surplus flooring donated by manufacturers and wholesalers. They also manufacture rugs and runners from carpet ends. To support all these activities, Spruce provides training and work experience for people, especially the younger generation struggling to gain employment.

### Carpet Tile Recycling

Carpet Tile Recycling finds second homes for used carpet tiles, with organisations or individuals who want affordable flooring. Some of its customers simply want to buy products that minimise damage to the environment. The company also deals with surplus flooring, again making the most of carpet that would otherwise be thrown away.

### Greenstream

Greenstream Flooring makes your ReUse carpet tiles bring warmth and comfort to a second home. They also provide training and volunteering opportunities – and supports this financially through the sales of new and used carpet. Several times a year, Greenstream holds donation days for the benefit of the local community.

## RePurpose Partner

### Equipro

Equipro is a RePurpose partner, their focus is around environmental sustainability for textiles, deriving extended product life-cycle and a circular economy, whilst also producing high quality surfaces.

**“I’m proud to be part of Interface’s ReEntry Service that creates such positive social and environmental impact, it is win-win for everyone.”**

# Improve your sustainability performance.

**By partnering with Interface it's easy to make a contribution and improve your sustainability performance.**

- We take care of the collection
- We enable positive social and environmental impact
- We provide you with a certificate reporting your contribution

Interface | ReEntry®

## Congratulations on your commitment towards a circular economy.

We would like to thank  
Company Name

For choosing ReEntry to divert used carpet from landfill  
1000 square metres

By choosing to partner with Interface, your used carpet will not end up in landfill but create further social and environmental value according to waste management hierarchy principles.

On average 60% of your used carpet will be reused through our social ReUse partner network. As an absolute last resort, it will be turned into useful energy, through a waste-to-energy facility.

Thank you for being part of the Climate Take Back. By choosing ReEntry, you have ensured that more social and environmental value is created with your used carpet, taking us one step closer to a circular economy and a climate fit for life.
