BEFORE

AFTER

BRUTON ST.

We replaced an outdated blue carpet with modern Milliken carpet tiles to keep in line with the period building. Transforming the managed/serviced office into a space the staff can be proud of!

PHOENIX PRIMARY SCHOOL

After a flood in the catering hall, we replaced the laminate flooring with this wood effect sheet vinyl. This is durable, can sustain getting wet and looks great. After carrying out these works the school have had us back on various holidays to replace corridors and classrooms.

BOURNE, PALL MALL

This project saw Selby teaming up with long term partners Bourne office space to assist on installing Amtico French Weave panels across 5 floors. This took some real-time skill from our installation teams but as usual, they did not dissappoint.
